

## **Anders Berggren, CEO Marmon Retail, Bershire Hathaway, to deliver keynote address at Savannah Edays**

We are pleased to announce that Anders Berggren will join the stellar list of speakers for the Savannah Edays in April 2009 on the theme "Capital Growth". The overall theme for the three-day conference is *Accessing Growth Capital for a Sustainable Future*. Mr. Berggren, who served as SACC-USA's chairman 2003-2004, brings a lot of insights to this topic with his extensive international experience as former President of Husqvarna and now as CEO for Marmon Retail Fixtures, a billion dollar company within the Marmon Group, which Berkshire Hathaway bought in March.

Marmon Retail Fixtures designs, builds, sells and services shop fittings and equipment for retail chains, from small stores to huge chains such as Best Buy, IKEA, Lowes and Wal-Mart. "We supply all of Wal-Mart's stores in the U.S. and also work with their stores in China. We have the global responsibility for this sector and coordinate a complex logistical system," Berggren says.
